### LANGUAGES

**French** : Intermediate

**English** : Intermediate

**German** : Beginner

### SKILLS

▪ **Framework** : Symfony4/5, React Native, React JS, Vue3, Bootstrap.

▪ **Programming**: Javascript, TypeScript, Nodejs, PHP 7/8, HTML/CSS, Script Shell sous Unix, Secure Shell (SSH), Webservice REST/SOAP, XML, JSON, Yaml

▪ **Project management** : SCRUM, Jira

▪ **SGBD** : SQL, MongoDB, Oracle

▪ **Design** : Conception objet, UML, Modèle MVC, Architecture client-serveur.

▪ **System** : Windows, Linux

▪ **Web Services** : REST/SOAP

### CERTIFICATIONS

- Projet Socio-culturel
- Diploma in French language studies (DELF)B2

### WORK EXPERIENCE

#### July 2021 - Today : TCONCEPT | FullStack Developer

##### **Project : « GPAO »**

Design and development of the "GPAO" project allowing the management of suppliers, maintenance, production and quality and other functionalities.

- Study and development of web applications.
- Agile Methods within a team of 11 peoples : AGILE methodology (SCRUM : Daily standup, Retrospective, Demo, Sprint planning, users stories...).
- Deployment on development environments.
- Déploiement sur les environnements de développement.
- Back development of production and purchasing department management.
- Front Development.
- Maintenance and evolution of the database.
- **Technical environment**: SCRUM, ReactJs, Redux, Symfony5, Api Platform, Vue3, Jira, Docker, Postman, Trello , GitHub.

#### June 2020- June 2021: BestLog | Full Stack Developer

##### **Project: « Europeconomic »**

Design and development of the "Europeconomic" project allowing the management modules and activities, regulations and other functionalities.

- Agile Methods within a team of 8 peoples : AGILE methodology (SCRUM : Daily standup, Retrospective, Demo, Sprint planning, users stories...).
- Drafting of technical specifications and implementation notes.
- Design and development of web services (REST).
- Ensure the installations on the VMs (docker, etc.)
- Deployment of the application on development environments.
- **Technical environment** : ReactJs, Redux, Symfony4, Docker, Jira, Webservice REST/SOAP, SCRUM, GitHub.

#### September 2019-January 2020 : UTECOM | Web Developer

- Deployment of the application on development environments.
- Design and development of web services (REST).
- Design and implementation of the back-end architecture.
- **Technical environment** : Symfony4, Webservice REST/SOAP, GitHub.

#### January 2019- June 2019 : Orevon Venture Partners | Internship End of study project

- Développement du Dashbord Admin et intégration des API Rest.
- Design and development of web services (REST)
- Development of Dashboard Admin and integration of Rest APIs.
- **Technical environment**: React Native, Redux, Angular 7, MongoDB, Trello, SCRUM, Postman, GitLab.

### **2018- COM4DESIGN | Engineer Internship (2 Months)**

- Deployment of the application on development environments.
- **Technical environment:** React JS, Redux, GitLab

### **2017- IT Proxy | Engineer Internship (1 Month)**

- Development of an e-commerce site with Symfony 3 HTML, CSS3 and JavaScript

### **2015- Brainy Concept | Computer Technician (9Months)**

- Development of an e-commerce site with HTML, CSS3 and PHP.

## **EDUCATION**

- **2016-2019** : Engineering in Computer Engineering – Ecole Polytechnique, Tunisia
- **2011-2015** : Fundamental License in Computer Science – Higher Institute of Computer Science and Mathematics (ISIMM), Tunisia
- **2011** : Scientific baccalaureate – “Mathematics” option, Tunisia

## **HOBBIES**

- **Traveling**
- **Tennis**
